Awais Ur Rehman Soomro

PROGRAM MANAGER, GRID INTEGRATION ENGINEERING | PMP | | OSHA 30 | AWS BI ENGINEER

Karachi | +92 335 2880233 | ars.soomro18@gmail.com | awaissoomro.online | linkedin.com/in/awais-soomro

PROFESSIONAL SUMMARY

Grid Integration Program Manager supporting a portfolio of US-based PV solar interconnection projects from utility application through PTO. Coordinate pre-NTP activities, schedules, budgets, risks, dependencies, site readiness, testing, closeout, and cross-functional stakeholders across US teams. PMP and OSHA 30 certified Electrical & Electronics Engineer with 8+ years of experience across utility-scale solar, EPC, construction, ELV, power systems, and customer success in the US, Pakistan, Turkey, and Germany. Known for standardizing reporting, building practical dashboards and trackers, improving process visibility, and supporting team training and best practices.

CORE COMPETENCIES

PV Solar Interconnection & PTO	Pre-NTP Coordination	Utility Applications & Permitting
Schedule & Milestone Control	Budget, Cost & P&L Tracking	Risk, Issue & Dependency Management
Site Readiness, Testing & Closeout	Stakeholder & US Team Coordination	Reporting & Dashboard Standardization
Change & Purchase Orders	Scope of Work Definition	Team Training & Process Improvement

PROFESSIONAL EXPERIENCE

Grid Integration Program Manager, Nexamp (via Tekminds International) — Oct 2026 – Present

Karachi, Pakistan · Supporting U.S. PV solar interconnection program

- Manage a portfolio of U.S.-based PV solar interconnection projects, overseeing project coordination and pre-NTP activities from utility application through permission to operate (PTO).
- Coordinate multiple projects, stakeholders, and U.S. teams to track schedules, budgets, risks, and dependencies and support timely project execution.
- Support utility applications and permitting activities, maintaining visibility of outstanding requirements, project documentation, and readiness milestones.
- Coordinate site readiness, testing, commissioning, and closeout activities, keeping deliverables and cross-functional handoffs aligned with project schedules.
- Standardize reporting, dashboards, and project trackers to improve portfolio visibility and make priorities, risks, and dependencies clear to stakeholders.
- Contribute to process improvement, team training, and shared best practices across solar, interconnection, and energy storage projects.

Assistant Project Manager, Tekminds International (Nexamp) — Jul 2025 – Oct 2026

Karachi, Pakistan · Supporting Nexamp U.S. utility-scale solar

- Supported solar project delivery across multiple U.S. utility-scale portfolios, coordinating schedules, documentation, cost tracking, and stakeholder follow-up across concurrent projects.
- Owned profit and loss tracking, contractor change orders, and purchase orders in Procore, aligning approved values with budget reporting and supporting bid evaluation and scope of work definition.
- Tracked milestones from pre-NTP through completion, prepared monthly reports and Primavera P6 updates, and escalated risks early to keep scope, budget, and schedule on track.
- Coordinated a director-assigned project closeout, delivering the full client documentation package across construction, technical, permitting, and commissioning records.
- Served as team lead for Assistant Project Managers, onboarding APMs and building reporting trackers and automation workflows used across the team.

PROFESSIONAL EXPERIENCE — CONTINUED

Assistant Manager Technical, Pathfinder Group — Nov 2024 – Jul 2025
Karachi, Pakistan

- Led security infrastructure projects across four regional offices, managing CCTV, alarm, and monitoring system installations from planning through execution.
- Coordinated teams, vendors, and stakeholders to achieve timely delivery, quality control, and effective issue resolution.
- Implemented Odoo ERP and WhatsApp API workflows to streamline alarm notification processes and improve operational efficiency.
- Reported project status and performance metrics to the General Manager, supporting decision-making and group-level coordination.

Project Engineer, Apus Technologies — May 2022 – Nov 2024
Karachi, Pakistan

- Led end-to-end delivery of ELV infrastructure projects (ICT, CCTV, fire alarm, BMS) and small-scale solar works while maintaining scope, timeline, and quality targets.
- Prepared technical drawings, specifications, bills of quantity, and design reports for client review and project execution.
- Coordinated site installation, testing, and commissioning with cross-functional teams and subcontractors, and established business relationships across new accounts.

Customer Success Specialist, Foursource — Nov 2020 – May 2022
Remote, Germany

- Managed onboarding and support for 500+ Turkish B2B clients, increasing user adoption by 150% and improving client retention.
- Coordinated closely with headquarters teams in Germany, Turkey, and Pakistan, ensuring smooth stakeholder communication across regions.
- Planned and managed the full lifecycle of the ISPO Textrends Awards project, including stakeholder coordination, KPI tracking, and successful closeout.

Junior Engineer, Agha Steel Industries — Aug 2018 – Nov 2018
Karachi, Pakistan

- Supported planning and execution of a rolling mill upgrade project alongside senior management and Turkish engineering teams.
- Aligned technical requirements, stakeholder expectations, and revamp objectives, and supported scope and design for the Direct Rolling & Bundling system.

Project Engineer, ASEM Grup — Jun 2017 – Jun 2018
Ankara, Turkey

- Led execution and commissioning of a 154 kV overhead transmission line spanning 15.9 km.
- Managed scheduling, resource allocation, and a 50-member cross-functional team while reporting progress to senior stakeholders.
